APPLICATION OF INTEGRATED APPROACH THROUGH VERBOTONAL MODEL FOR PERSONS OF THE THIRD AGE

Asst. Prof. Katarina Pavičić Dokoza, PhD, SUVAG Polyclinic, Zagreb

Vesna Mihanović, PhD, SUVAG Polyclinic, Zagreb

Koraljka Bakota, MSc, SUVAG Polyclinic, Zagreb

5. Preventive action on neurological aging with emphasis on risk factors

4. Empowering and improving the motor skills of persons of the third age

SUVAG Polyclinic for the rehabilitation of listening and speech, Zagreb, has developed an integrative rehabilitation model in a collaborative setting, based on many years of clinical work with older adults (presbyopia, aphasia, Parkinson's disease etc.) to enhance social inclusion, improve physical and mental health and preserve functional abilities of elderly.

The Verbotonal Model for elderly consists of 5 units within which specialized workshops are organized.

3. Application of Verbotonal special procedures aimed at encouraging the creative expression of persons of the third-age

2. Application of Verbotonal special procedures aimed at encouraging the creative expression of persons of the third-age persons

- The Assertiveness Workshop
- The Workshop of Rhetoric

1. Empowerment and improvement of social and emotional abilities of third-age persons

- The Assertiveness Workshop
- The Workshop of Rhetoric
